

Moving Expenses Deduction

Read the attached information sheet before you complete this form. Use this form to calculate your eligible moving expenses deduction. Complete a separate form for each move. Do not attach this form, or the receipts and documents supporting your claim, to your return. However, keep them in case we ask to see them at a later date. If you are using EFILE, show them to your EFILE service provider.

Can you claim moving expenses?

To qualify, your new home must be **at least 40 kilometres** (by the shortest usual public route) closer to the new place of work or educational institution. You must establish your new home as the place where you ordinarily reside. For example, you have established a new home if you have sold or rented (or advertised for sale or rent) your old home.

If you have moved and established a new home to be employed or carry on a business, you can claim eligible moving expenses from employment or self-employment income you earned at your new work location. You can also claim moving expenses if you moved to study courses as a **student in full-time attendance** at a university, college or other educational institution that offers courses at a post-secondary school level. However, you can **only** deduct moving expenses from the part of your scholarships, fellowships, bursaries, certain prizes, and research grants required to be included in your income. Generally, your move must be from one place in Canada to another place in Canada.
